Now that George Washington Aguinaldo has taken the oath of allegiance to the United States, it might be well for Benedict Arnold Atkinson of Boston to do the same thing.

ONE of the arguments of the anti-Oxx of the arguments of the anti-Americans is that the Philippine Islands, since the beginning of the in-surrection, have cost the United States \$202,583,000 in money, 908 in officers and men killed and died of wounds, and 2,120 in officers and men dead from diessee. Well, why don't you say something about the income to Uncle Sam from customs duties levied is the Islands during this time and Uncle Sam from customs duties levied in the Islands during this time, and of the profits that will accrue from the new possessions in the many, many years that are to come after the insur-rection is over?

The United States Court of Appeals has given a black eye to the Kentucky aystem of "double taxation." The Louisville Trust Company owned \$46.
470 worth of stock in the J. B. Martingly Company's Distillery. The Distillery Company paid the taxes on this stock, and yet the State Board of Equalization ordered the Louisville Trust Company to pay taxes on it too. The latter resisted and went to jaw, losing in the lower Court but winning out in the United States Court of Appeals, where it was decided that double taxation was not quite the proper. taxation was not quite the proper thing. This just decision will apply to thousands of cases, many of which to thousands of cases, many of which exist here at home, where the owner of a mortgaged home is assessed for its mortgage note is assessed for its mortgage note is assessed on that also. Either one or the other ought to be exempt, else a person is to be saxed on what he owes rather than on what he owns.

Take a cup of Arbuckles' Coffee and a cup of the "cent-a-pound-cheaper" kind. One taste of each will prove to you that the reason Arbuckles' costs a little more is because it's worth more. It's selected with greater pains, roasted with greater care, packed with greater skill. It comes to you as fresh as when it left the roaster. Not a particle of its strength or flavor lost. Cheap coffee lacks both strength and flavor.

RBUCK Roasted Coffee

is cheaper in the end than other coffees because it makes more cupfuls to the pound and gives far greater satisfaction.

With each package of Arbackles' Coffee you purchase a definite part of some useful article-which is yours on presentation to our Notion Dept. of a certain number of signatures cut from the wappers. You'll find a list of the articles in each package.
